

ChemiPeel™

The **ChemiPeel™** is a phenomenal peel that by itself is a **Quick-Fix Beautification FaceLift**. It will safely peel off sun damage, age spots, wrinkles, and hyper-pigmentation. It works by dissolving protein within the surface layers of the skin, causing it to lose its vitality, then stiffen, heal, and peel. The treatment involves incremental layering of the Chemipeel™ solution onto the skin. There is no discomfort over the entire week of sloughing off. You will be amazed at how quickly this peel removes surface imperfections, and fills lines, wrinkles, and depressed contours with a FaceLifting burst of Collagen & Elastin.

ChemiPeel™ Quick-Fix FaceLift Benefits:

- **Medical Grade Purity** formula using *United States Pharmacopeia Standard USP-XXI*. No adulterating chemicals or heavy metals.
- **Triggers Weeks** of incredible thickening and firming with **Collagenic Matrix Rebuilding™** releasing Collagen and Elastin Peptides in the Dermis, restructuring the entire skin matrix from dermis to surface. Plumps Collagen into Marionette Depressions.
- **Cosmetic Depth** of treatment is similar to a “sun tan” peel. No Red Coloration.
- **Spectacular Results** in 8-10 days.
- **Reverses** up to 1-2 years of aging.
- **Tolerable** tingling during application for 2-3 minutes (cooled with fan).
- **No Tingling** felt upon completion of treatment.
- **Removes or Reduces** Eye, Lip, Neck, and Décolleté Wrinkles, Diminishes Stretch Marks, Hyperpigmentation, Sun Damage, and Discoloration.
- **Lifts** Jaw Line and Thickens Cheeks with Profuse Collagen and Elastin.
- **Accelerate Results** with a treatment every 6 weeks.
- **Combines** with a PowerDerm Kinetic Dermabrasion to achieve a Combo Peel, or with a Double Peel to achieve the Amazing Triple Peel.

“I had wrinkles around my eyes so after a Double Peel I asked my esthetician to add the ChemiPeel around them so they would look younger. She did two layers and in five days my lines were gone. My eyes are brighter and I look like a different woman.”
